SHIELDING YOU FROM ECONOMIC STORMS

As tough economic times continue, the credit market becomes increasingly more challenging for daily business activities which can negatively affect your company's bottom line and cash flow.

SERVICES

All collection services provided are on a contingent basis. Rates are negotiated ahead of time with our clients so everyone is on the same page. If we do not collect on an account, our clients do not pay a fee and we release any information gained through our collection process back to you.

CREDIT REPORTS & CUSTOMER PROFILING

RAB provides Experian based Business Credit Reports to our clients. We also have access to a collection database to help advise our clients with their customers. These tools are utilized by our clients when they are determining whether to extend credit to new/existing customers or if the customer must be placed for collections.

ACCOUNT RECEIVABLES/PRECOLLECT SERVICES

RAB acts as an extended billing office to our clients that have a volume of accounts and would like to reduce the size of their in-house staff. We can customize the process to meet the needs of our client's current A/R procedures. RAB offers services ranging from sending initial invoices to demand letters. This service is all done with our client's letterhead with pre-approved services and letters. Outsourcing debt saves our clients time and money by eliminating the hassle and expense of additional employees on staff.

10-DAY FREE DEMAND LETTER SERVICE

RAB will send a collection letter to your customer to notify them that they have 10 days from the date of the letter to clear the debt in its entirety. If the customer pays within this time frame, you as the client will not be expected to pay any fees to RAB and we will not initiate any further collection action. Should the customer fail to pay in its entirety within these 10 days, RAB will initiate the debt collection process in order to collect the outstanding amount for you.

STANDARD COLLECTIONS

When commercial accounts are placed with us, our highly trained and motivated staff immediately attempts to contact the debtors and collect the debt. This service is perfect for businesses to utilize before attempting any legal means. Our fees are on a contingency basis so no money is out pocket if the debt is not collected. At RAB, our main goal is to collect our client's delinquent accounts while maintaining the relationship between our client and their customer. This services includes all business to business collections as well as some business to consumer collections.

INFIELD COLLECTIONS

In certain situations, RAB finds that sending trained infield collectors to meet with debtors face to face can be extremely effective. RAB can get to the bottom of why our client hasn't been paid and begin to work through any issues to resolve the balance.

LEGAL SERVICES

RAB employs in house counsel as well as having access to our nationwide network of attorneys. We offer legal services for filing lawsuits, liens, repossessions, and much more. RAB clients do not pay retainers like attorneys typically demand. RAB only asks for the filing fees that are associated with which ever service our client desires.
